The following figures are based on AGCOM's elaborations on firms' data. The data are updated until March 2021 where possible. The results are not directly comparable with those reported in other documents produced by the Authority. Percentages may not total 100 due to rounding.

## 1.1: COVID-19 MONITORING: AGCOM'S ROLE DURING COVID-19 EMERGENCY

- 1 The so-called "**Cura Italia**" decree reaffirmed AGCOM's role as the competent authority for any modifications, integrations or derogations to the ordinary regulations which are required necessary to deal with the health emergency, ensuring competition in the infrastructure and services markets and, at the same time, the protection of users.
- 2 To this end, **permanent consultation panels** with sector operators and stakeholders have been set up in order to identify suitable proposals to resolve the main critical issues related to the COVID-19 emergency.
- 3 The **data and information** illustrated in the figures below represent the result of a **specific monitoring activity** conducted by the Authority, which has the **general objective** of providing an information base that can contribute to a better understanding of trends and any critical issues that may emerge from the current pandemic crisis.
- 4 The **information presented** in the figures below is the result of a specific **monitoring activity carried out by the Authority**, achieved also thanks to the effective collaboration with operators, with the aim of providing an information base that can contribute to a better understanding of the trends in progress in such a complex period.
